Knowledge Hub

Aug 2025

Background Knowledge Hub (HB)

Why do we need a KH:

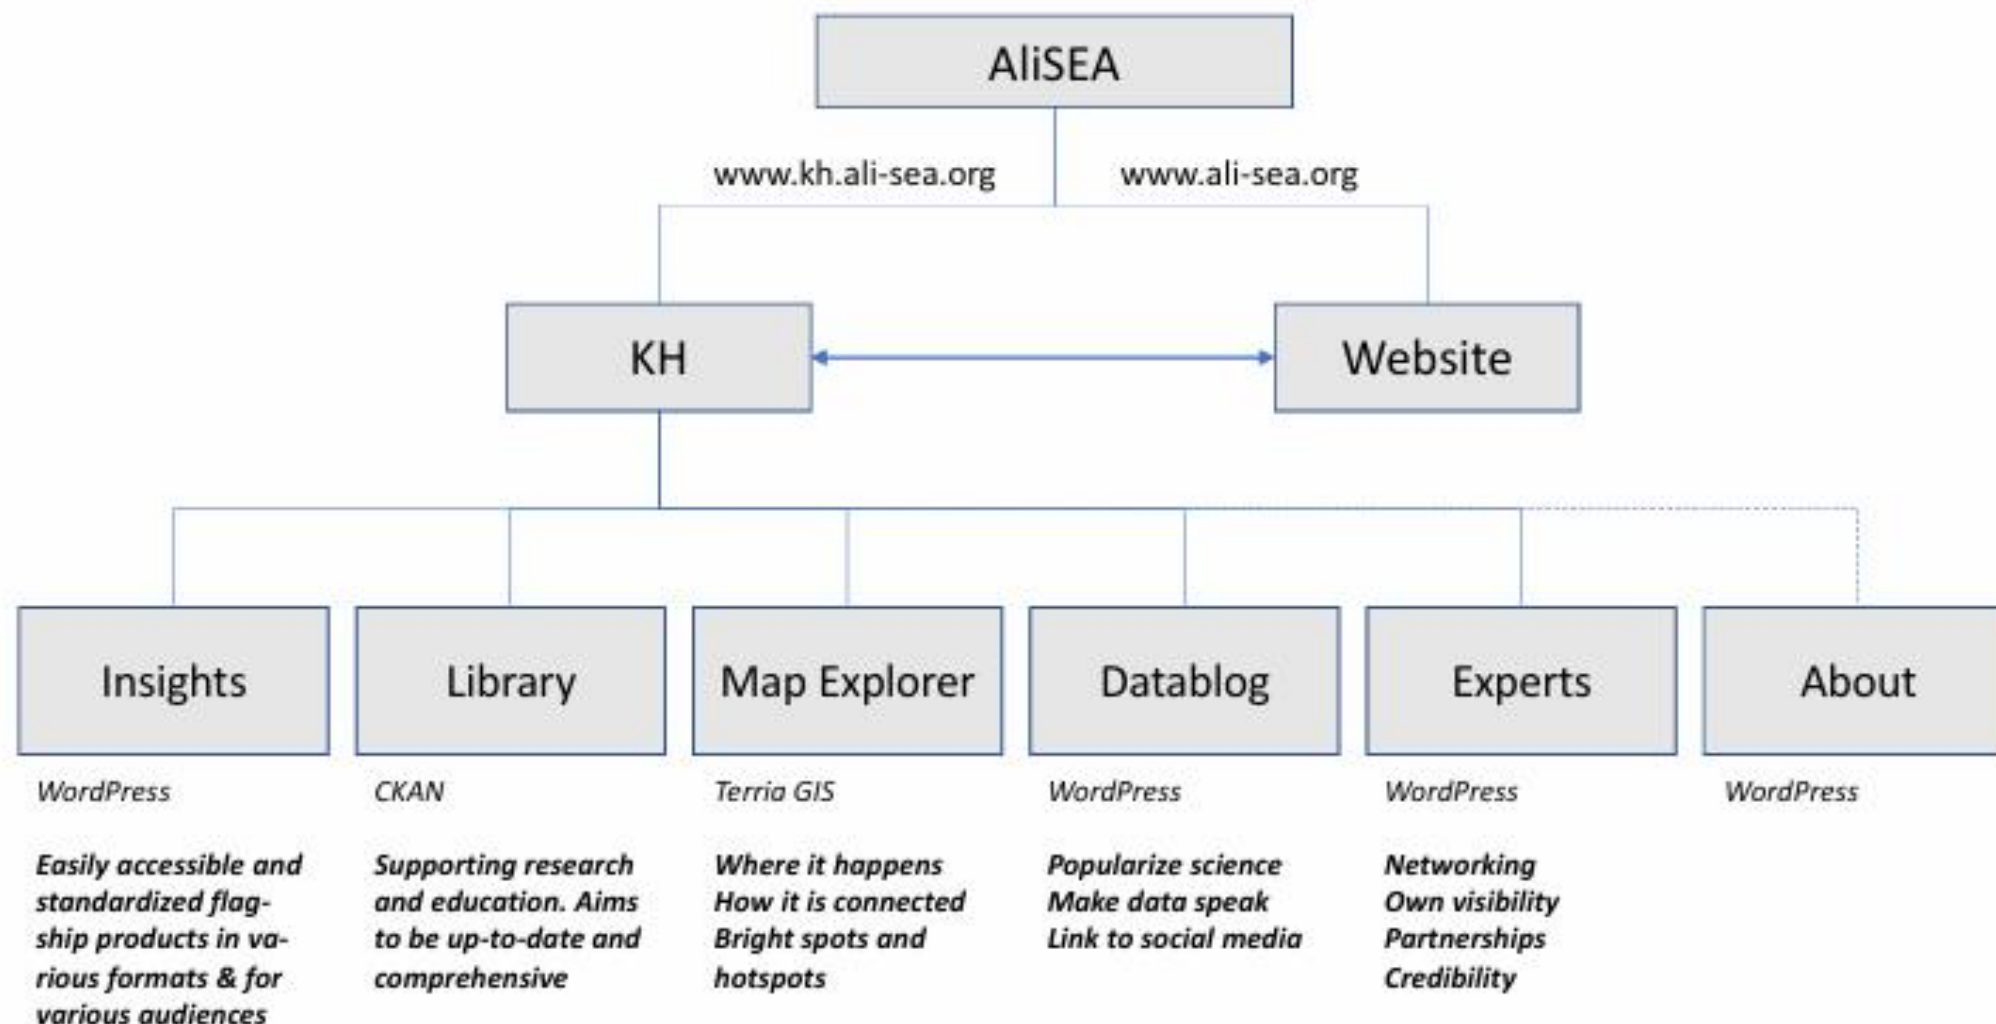

The lack of **robust evidence** is a major obstacle in advancing agroecology in the Mekong Region. **The scarcity of resources in national languages** further hinders the dissemination and understanding of agroecology.

Aim of the ALiSEA Knowledge Hub:

Become the leading knowledge resource on agroecology in the Mekong Region, to:

- facilitate knowledge-sharing
- increase the visibility of local and national experience and insights
- promote a diverse range of knowledge inspire stakeholders
- foster networking among all actors interested in agroecology

Structure

ALiSEA Knowledge Hub

The essential digital gateway to data, information and knowledge on agroecology in Southeast Asia.

Inspiring stakeholders to promote and adopt agroecological practices.
