Current Status of Vietnam Knowledge Hub

- 134 materials related to Vietnam available on the Hub.
- Covering: sustainable food systems, soil health, biodiversity, pesticide reduction, integrated systems.
- Resource types: research reports, policy briefs, case studies, training videos, and technical guides.

The screenshot shows the search results for 'Vietnam' on the Vietnam Knowledge Hub. The left sidebar filters for 'Country: Vietnam' (134 results) and 'Document Type' with the following counts: Presentations & events (38), Practical how-to (26), Scientific & Research (21), Success stories & cases (20), Policy guidance (7), Institutional & project documents (5), Studies (5), Outreach & communication (2), and Books & reference works (1). The main content area shows '134 datasets found' with a search bar and a filter for 'Country: Vietnam'. Two dataset entries are visible: 'Sustainable Coffee Production Models in Son La, Vietnam' (MP4) and 'Hương đi cho sản xuất và tiêu thụ xoài ở Sơn La' (PDF). A third entry, 'Nông nghiệp Tây Bắc: Nhận diện thách thức và định hướng', is partially visible at the bottom.

Challenges and Gaps

- Limited Vietnamese-language materials (most content in English).
- Many members have knowledge products but haven't been collected and uploaded to the Hub.
- Fragmented documentation of local innovations and Indigenous knowledge.

The screenshot shows a digital library interface. At the top, a green banner with a textured background contains the word "Library" in white. Below this, a white text box states: "Our repository of literature on agroecology on Southeast Asia includes more than 750 documents." The main content area is white and features a breadcrumb trail "Home / Datasets". On the left, a green sidebar lists categories with counts: "Country" (expanded), "Lao PDR - 210", "Cambodia - 205", "Global - 142", "Vietnam - 134", and "Myanmar - 80". To the right of the sidebar is a green "Add Dataset" button and a search bar with the placeholder text "Search datasets...". Below the search bar, it displays "1,012 datasets found" with a "Order" link. A specific dataset is highlighted with a lock icon and the label "PRIVATE", titled "Seeds of Transformation: Agroecology in Siem Reap".

Future Directions & Call for Contribution

Let's enrich Vietnam's Agroecology Knowledge Hub!

Members are encouraged to:

1. **Submit** your case studies, research papers, manuals, reports, training videos <https://ee-eu.kobotoolbox.org/x/vPRE5xxo>
2. **Develop** knowledge products, using ALiSEA guidelines
3. **Translate/localize** content into Vietnamese.
4. **Document** local innovations & Indigenous practices.
5. **Engage** in ALiSEA's webinars and peer-learning activities.
6. **Use** the Hub for visibility, networking, and policy dialogue.
7. **Join** the expert database to share knowledge and build collaboration in the region

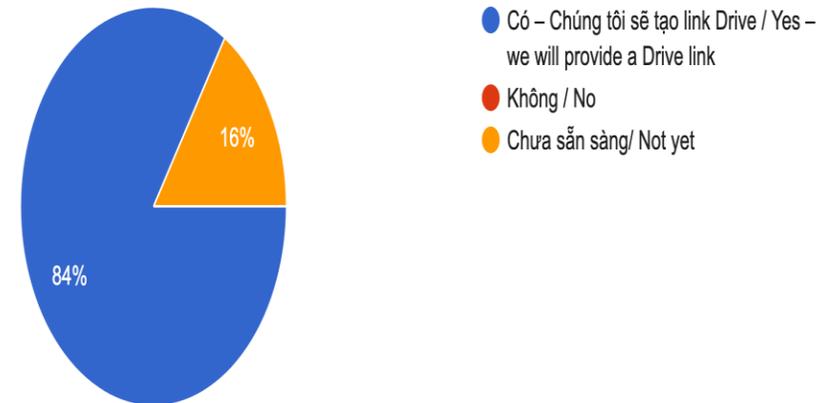

Share. Learn. Grow Together

Sharing with ALiSEA network

- Is your organization willing to provide AE-related documents to ALiSEA for sharing with other members and the community?

Tổ chức anh/chị có sẵn sàng chia sẻ tài liệu NNST cho ALiSEA để chia sẻ cho các thành viên khác và cộng đồng? / Is your organization willing to pr... for sharing with other members and the community?

50 responses

Thank you very much!
