Wide Geographical distribution

7

2nd Call of Proposal

**Attention points and Next Step in
selection process**

Attention points

9 Elimination criteria:

- Budget requested over the ceiling of 10,000USD
- **No co-funding** (or co-funding below 20%)
- Date of implementation beyond 2018

About 12 grants will be available for this 2nd call for proposals

up to 3 grants for each country

Attention points

10

Agroecology can be understood in **many different ways** according to the people background and experiences

Agroecology seeks to

- produce diversified and high-quality food,
- reproduce – or even improve – the ecosystem's fertility,
- limit the use of non-renewable resources,
- avoid contaminating the environment and people,
- contribute to the fight against global warming

Next step in selection process

11

- **24th of March**, announcement of the results of the Concept Note selection

- **10th of April**, deadline for Full Proposal submission

- **8th of May**, announcement of Full Proposal results, **able to start project intervention**

- **30th of May**, contract signing for 2nd round

Thank you for your attention
